

tuneGEAR Announces Four New Headphone Lines

Jam'n Budz™, Jam'n Phones™, and Skullbudz™ and Skullphonz™ “light up” the market

January 8, 2007 – Las Vegas, NV– foneGEAR® LLC (Rochester Hills, MI) – a leader in mobile communications accessories – announced today the introduction of four new lines of tuneGEAR audio headphones: Jam'n Budz™, Jam'n Phones™, Skullbudz™ and Skullphonz™. Each has a distinct look and great sound, and they represent a totally new concept in audio enjoyment.

Jam'n Budz and Jam'n Phones are brightly colored headphones in patent-pending guitar shaped packaging. Jam'n Budz are an earbud style headphone, with great sound and interchangeable ear cushions for a custom fit. Jam'n Phones are an over-the-head style headphone for customers who prefer more traditional styling with excellent sound. Both are offered in the customers' choice of eight great colors: Red, Blue, Green, Pink, Black, White, Orange, and Purple.

Skullbudz and Skullphonz are totally different, and totally exciting. Also available as earbud-style or over-the-head headphones, Skull-products come with a twist: patent-pending Skullbudz and Skullphonz are formed in the shape of a gleaming chrome skull, with long-lasting LED eyes that light up to the music!

“Jam'n Budz and Skullbudz give the style conscious audiophile something to sing about,” according to Ken Eisenbraun, foneGEAR's President. “Great sound and great looks – what more could you ask for in headphones? These products are another way foneGEAR and tuneGEAR are bringing great ideas and fresh products to the public.”

Jam'n Budz are available now, and Jam'n Phones, Skullbudz and Skullphonz will be available in the first quarter of 2007. The complete line of tuneGEAR audio products will be on display in South Hall Booth 31767 at the 2007 Consumer Electronics Show.
